KEY AREAS

As more advanced online abuse threats rapidly evolve, M3AAWG is proactively shifting its work to focus on 4 key areas, in addition to continuing to develop the organization, its partner ecosystem, while continuing to maintain a diverse and inclusive culture.

Data and Identity Protection

Protect online identity (ex. using multi-factor authentication), ensure data privacy and security through use of encryption/ encrypted protocols, adopt Zero Trust principles by verifying explicitly, using least privilege and assuming breach

1

Communications

Protect network, messaging, mobile, IoT communications/ systems/devices from malware, spam, phishing, DDoS, DNS attacks

2

Supply Chain

Understand downstream dependencies and risk, incorporate secure software development/ testing practices, proactively monitor, detect and manage vulnerabilities

3

Readiness

Shift to be proactive to identify emerging threats, focusing on prevention/ mitigation/detection, deprecating older technologies

4

Working with members, industry groups and global partners, M3AAWG will continue its efforts to help prevent online abuse, focusing on protecting communications, data privacy and security, and the supply chain.
